

Investing in your people

## **Why choose Social Food**

With almost two decades of significant experience in factory-level Food Safety Management, as well as the international accreditation of its core seminar in Food Safety Culture, Social Food can provide reliable guidance for the internal improvement of Food Safety within your organization.

Our approach does not aim at temporary solutions, but at the development of internal capabilities. We support you so that you can design and implement sustainable Food Safety practices yourselves, adapted to your own operational reality.

# **Social Food is a company focused on Food Safety Culture.**

- Actions based on Food Safety Culture (FSC), transforming food safety into an everyday way of thinking
- Interactive seminars that focus on the “why”, activating participation and meaningful understanding
- Modular training that builds a common communication basis and supports organizational maturity
- Accredited Advanced Food Safety Culture Seminar, offering practical tools and direction for the next steps
- Coaching & KPI monitoring for the implementation and verification of Food Safety Culture in practice

## **What you gain overall**

- Establishment of alignment and full understanding of Food Safety needs and actions across all personnel
- Reduction of hesitation, misunderstandings, and conflicting priorities
- Reduction of quality-related costs in line with the organization's maturity
- Better preparation for unannounced audits
- Development and cultivation of personnel in-house at all levels
- Sustainability of the internal structure and organization of the Food Safety Management System
